

KINGDOM EXPORTS

**Churches can start car dealerships in any country
using high quality low cost used Japanese cars
Korean cars, German cars and some US Luxury cars.**

**Steering wheel can be ordered on the left
or right side of car.**

We can ship anywhere in the world.

BIG PROFITS!

<https://www.moreways2makemoney.com/kingdom-exports.html>

This is how our systems will work.

If you want to get a price on cars (this will include shipping and letters of credit),
orders would be like this.

If you are American side drivers (on the left) orders will be shipped out of Miami.

This will include **any kind** of used
Japanese, Korean. or German car,
US and Japanese Luxury cars.

If you want to submit a list for pricing and shipping for a group of cars this is what we will need. You will need to go on line and find the cars you want to order.

Get the - make, model and year of car

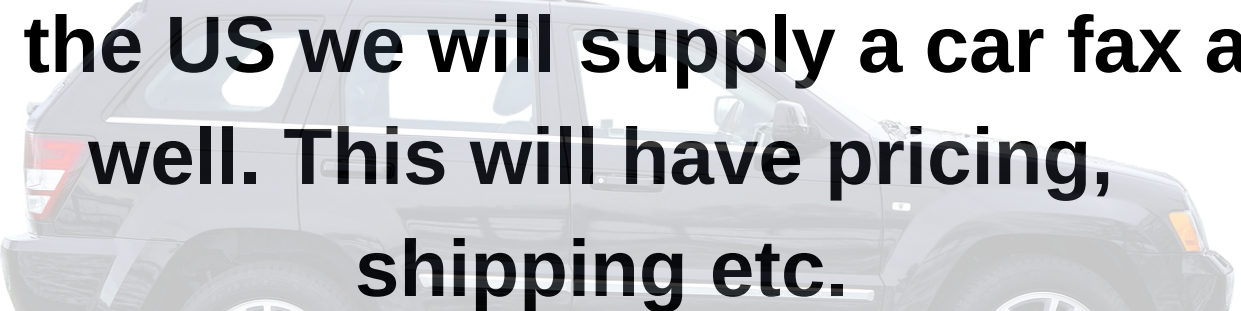

- Color - Quantity - Specifics: auto transmission convertible, etc.

- Time Frame: How soon you can buy

**If you do not have \$ (the funds) this
may not be a fit for you now.
To place an order you will need funds.**

Kingdom Exports will send a picture
and details of the car.

**In the US we will supply a car fax as
well. This will have pricing,
shipping etc.**

Please make sure the list is complete.

Our suppliers have to do a lot of work to
do this. We **do not** want additions
after it is submitted.

This is extremely important.

If you are going to place the order.

You do the next step

*** Go to your bank, must be a bank that can deal internationally and nationally and do letters of credit.**

You pick up the application from your bank and fill it out based on the info on the order. We will then help you with the letter of credit to be sure it has everything we need in it.

Letters take a bit so it needs to be done **correctly** other wise it is voided and it all starts over again .

Once the letter is complete you go to your bank and deposit the funds on the letter of credit.

You will need to pay your bank the fee for the letter of credit.

Letter of Credit - Definition

- A letter from a bank guaranteeing that a buyer's payment to a seller will be received on time and for the correct amount.
- The bank will make full or part of the purchase price (shortfall) in case the buyer defaults to make payment.
- In today's competitive world banks face increasing competition.

We will have given you our bank information to add to the letter of credit. This will then be sent to our bank.

We in turn send to our suppliers bank. This is the payment system that is now set up and the funds based on the order plus shipping and letter of credit will have been deposited.

SUCCESS

I am here to buy

I am here to sell

Purchase agreement (contract)

Both banks of buyer and seller make sure the transaction is complete according to the agreement.

Applicant (buyer)

Supplier (exporter)

Once the letter is set up, the suppliers will move all the order to the port (or in the case of US load on rail or trucks) and load on the ship.

Once the cars are loaded it will depend whether it is **FOB** or **CIF**.

FOB - is only used in sea freight and stands for "Free On Board".
The term is always used in conjunction with a port of loading.

CIF - Cost, Insurance & Freight

On **FOB** the moment the last car is loaded the letter is paid and the suppliers and us are paid from the letter.

The cars now belong to you the buyer
(making sure they insure the cargo)
once the ship leaves port, (or trucks or rails
leave from shipping location).

In shipping, usually it is a 2 to 4 week.
Over land in US, it varies from a couple
days to a week. Once the ship or trucks or
rails arrives they off loads cargo.
The buyer is solely responsible for meeting
all regulations in their country for bringing
cars off dock truck or rail in to the country
or state of arrival.

If **CIF** then once the ship docks or trucks and rail arrive and before cars are off loaded the letter of credit transacts and then **the cars are the property of the buyers.**

Of course for US bound cars there is no shipping as it is over land transport instead.

This is pretty simple and straight forward. We only do business with people who have the financial resources to order. Again if you do not have the funds now, try us back when you do.

Small orders are cost prohibitive with the cost of shipping, transport Insurance and letters of credit or even over land costs.

For US of course smaller orders are possible.

REMEMBER...

No one beats our prices!

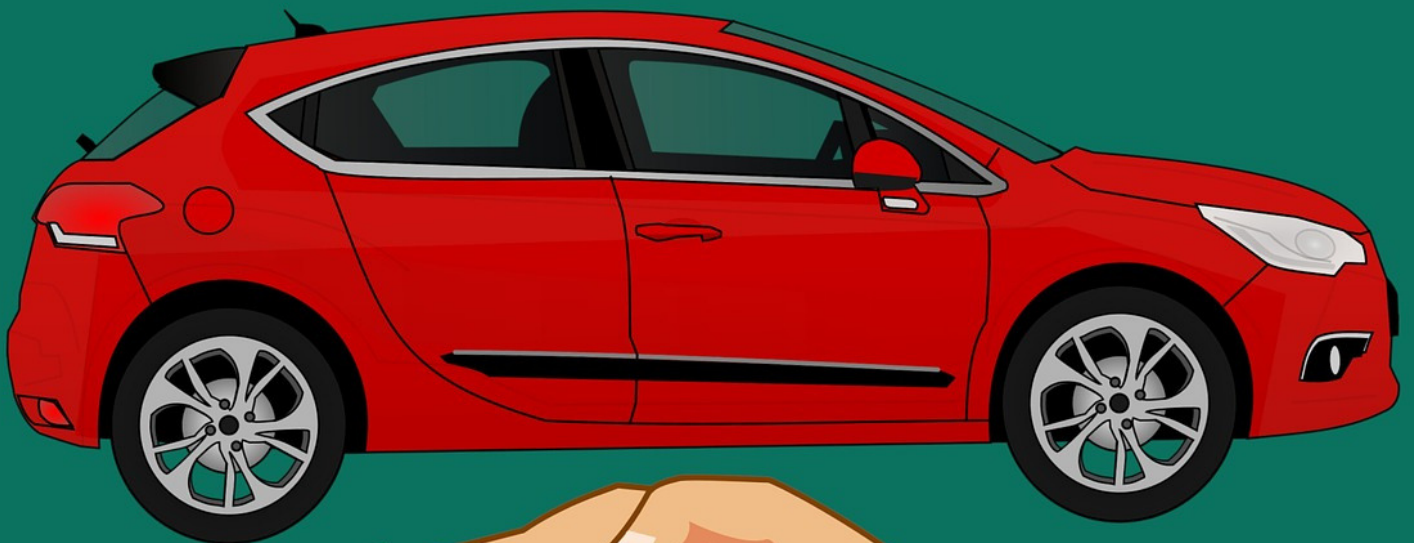

Our thought, You (the buyer) are bringing in these cars to set up distributors.

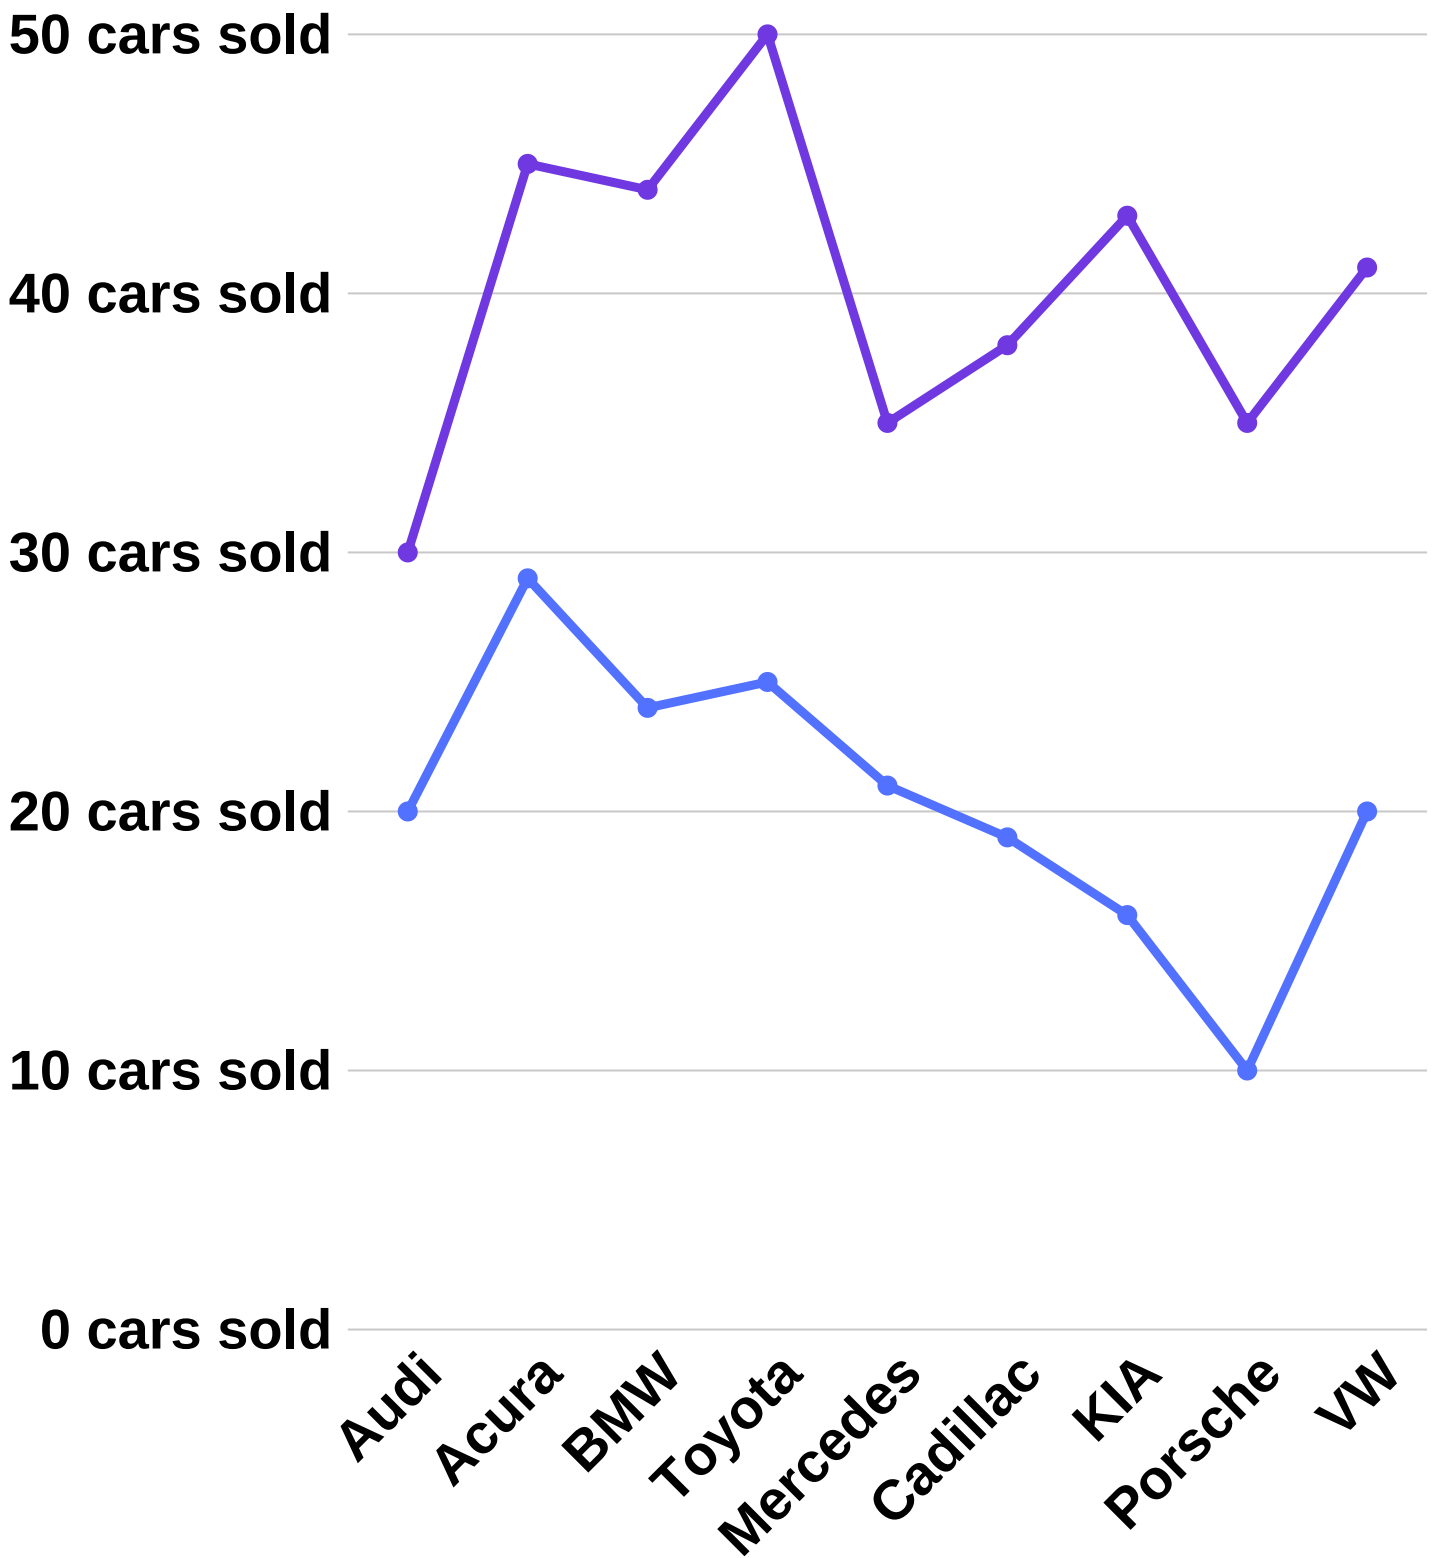

It is great income generating for local churches to establish their own car dealership to generate wealth.

**Raising more money
for your church is
very possible by**

**encouraging the church to purchase the
cars from the church dealership
as it does help support the church.**

IMAGINE!

Don't put a limit on GOD!

KINGDOM EXPORTS

**Buying cars that will sell
quickly is important.
Do your own research.**
