

*What Are You  
Expecting?*

It's a good question to ask yourself.

What You Expect Is What You Really Believe

**THE LAW OF EXPECTATION**

by Darryl William Crawford

**TODAY IS  
GOING TO  
BE A  
GOOD DAY!**

Say the above statement to yourself  
in the mirror about 3 times.

**NOW DO IT AGAIN,  
BUT THIS TIME  
TRULY MEAN IT!  
DON'T DOUBT,**

**ONLY BELIEVE!**

---

---

# THE NEW YOU

---

---

It's best to make a decision everyday to be better than you were yesterday. Why?

WHY NOT? If you are teachable and sincerely honest with yourself, you know you don't know everything, therefore this leaves you with plenty of room to improve one self.

Also decide to be a person who makes quality choices daily and to not to be indecisive. When a person is indecisive, they have a hard time making decisions which indeed hinders possibilities in their personal life and also hinders others in which they have influence.

When an indecisive person finally does make a decision, they may not be confident about it, or they might change their mind again which will only put off possibilities and the next time they face that decision it can be even harder to make than the first time.

It's a non-productive pattern, a continuum of delayed choices which never get made at the opportune time.

What we expect is what  
we truly believe.

Some ask why should we  
expect greater things or  
even the best of things in  
life? We should start  
expecting greater things  
and the best in life  
because we will receive  
what we truly are  
expecting. We should  
expect greater things and  
the best of things because  
of the God who made us,  
loves us and HE  
(YES GOD, the creator of  
heaven and earth) truly  
believes in US therefore  
we must believe in HIM.  
God expects us to do  
greater things because  
we're made in his image  
and likeness.

**hmm...**

There is a law called the Law Of Expectation which simply states that 85% of what you expect to happen ... will happen, whether it is good or bad. This law of expectation is very powerful, it doesn't play favorites, so it doesn't matter if we are expecting negative or positive things to happen

– The Law of Expectation stays true.

Your expectation is the  
fuel towards your dream,  
your goal.

What you expect is what  
you have practiced in your  
heart and mind whether  
for your good or not.

So it's wise to STOP  
practicing thoughts in your  
heart and mind that are  
not good and START  
practicing thoughts in your  
heart and mind which are  
good.

How can you do this?

By changing the words  
you say out of your mouth  
and seeing yourself at the  
end result in your mind.

Faith (what we expect) is released when we speak with our words.

Faith is expecting. Out of the abundance of the heart our mouth will speak. What we really believe, we will say in abundance certain words and those words of faith create our reality, which will change our thoughts.

When the pressure is on, the words that flow out of our mouths in abundance is what we truly believe.

# The Details

No one can cheat the law of expectation or no one can have faith in one thing and receive something else.

We can't cheat by just wishing or hoping something to happen or to be a certain way outside of our belief system.

Whatever we sow we will reap or whatever will put out, say or do we will receive in return.

Real expectation is tied  
into our belief system.

Wishing, hoping or any  
form of chance is not solid  
trust therefore it is not true  
faith.

Faith is solid and firm  
belief, expecting an  
outcome no matter what.

That is a sign of a true  
believer or a person who is  
using their faith.

You also must see yourself  
there, take a picture of  
yourself there in your mind  
and expect to be there.

Be in a constant thankful  
heartfelt state of mind as if  
you are already there. In  
your mind, you are there.

The bible even says as a man thinks in his heart so is he...this means as a person thinks, believes in it's true essence, as a person EXPECTS in their heart, (in their core belief system), this is who they are or becoming.

However the bible is not referring to the heart as an organ but instead or spirit.

It may seem funny now  
but think how 500 years  
ago people thought the  
earth was flat and those  
people (in their so sure  
minds in that time)  
expected if you go too far  
you will fall off the earth.

We know today that is  
foolishness or better yet  
down right crazy,  
it is totally not true.

They allowed their fear of the unknown to rule their life which hindered them from seeing, experiencing more of what God made for them to enjoy.

Our expectation in life is tied to our belief system and because it's tied into our belief system we will keep seeing, experiencing what we have been expecting and since we receive what we expect it's BEST to expect the best and not the worst.

SIMPLY EXPECT THE

**BEST**

Like the story of Job of the bible. Job feared the worst for his family and because he feared the worst for his family, the worst happened.

Read the book of Job in the bible for the full story.

Our expectations are so powerful and so right on that if we fear the worst it has an 85% chance of happening.

So it's best to believe (with all of your might) for the best things to happen to you and at the very least expect for good things to happen to you.

Make it your priority to affirm positive words everyday, seeing the glass half full instead of half empty.

Our expectations are so powerful and sensitive just by default so we must work at expecting the best or again at least expect for good things to happen to you everyday.

This will explain why even highly motivated people may have problems getting ahead at times.

It's all about their belief, what we expect, we experience and for those who have had problems in their thinking it is mainly because somewhere ingrained in their thinking (usually due to a past experience) is the belief that they can't succeed, or do it again or they believe they will repeat a past error or they can't top their last goal.

These are self defeating thought patterns which must be stopped!

We must stop lying to ourselves, stay away from the nay sayers (and keep ourselves surrounded around believers) and keep telling ourselves the truth!

Only the truth can set us FREE! If we hear a lie long enough the lie will become our reality.

We don't want to live a lie, nor do we want to live our fears but many people do this everyday by default.

We must face our fears with the truth and stop the continuum of, "what if's" because if we don't stop the what if's, we'll never experience the truth.

I don't know about you but  
I don't want to live a  
lifetime and find out I have  
been living a lie when I  
have had the power of  
choice within all along.

One thing we must get in  
our mind is our past  
doesn't determine our  
future unless we allow it to  
be.

I must say that again in a  
different way, OUR PAST  
is just that OUR PAST and  
it doesn't determine our  
future.

What we do TODAY  
determines our future.

We change our thoughts  
with our words and our  
words give birth to  
pathways of new thought.  
Get into the habit of saying  
positive affirmations  
everyday.

Learn to say affirmations  
from your heart, express it  
from deep down and  
believe every word you are  
saying.

Expect success.

Expect it and see yourself  
successful. In every way,  
spiritually, mentally,  
emotionally, physically,  
socially, financially etc.

Stay charged with faith.  
The words you say today  
will paint your tomorrow.

Our words actually shape  
our personal world within.

So if we affirm to  
ourselves everyday that  
we are going to speak,  
think and act differently,  
expecting the best to  
happen to us on purpose,  
we are changing our future  
and our past cannot stop  
this process unless we  
quit doing what needs to  
be done TODAY.

We were created in the  
image and likeness of God  
and God is always  
creative therefore we need  
to remind ourselves to  
stay creative and to keep  
affirming good things in  
our life daily.

One good thought you  
can remind yourself is that  
God desires to bless us  
even more than we would  
ask for and even imagine.

life is good

So expect good things to  
happen to you everyday.

Learn to focus on the  
positive things in life and  
prepare to be tested and  
doubted, that comes  
along with the journey.

In life there are 2 kinds of  
people in this world,  
believers and doubters.

You may not be able to control what others think but you can control what you think by continuously affirming good things.

You may not be able to control what people say but you can control the words you affirm out of your mouth.

When we get our words right, we can get our thoughts right and when we envision ourselves, receiving the end result, living the dream, see ourselves doing greater things, we will get it.

Belief with enthusiasm is everything!

Visualization, seeing yourself accomplishing your goals is very important to reach your goals.

When you visualize, you must do it on purpose.

If you believe you are seeing yourself defeated in your mind, you will be defeated in life.

When you see yourself winning, accomplishing your goals, seeing yourself there, being thankful for the experience, expressing sincere gratitude daily with continuous practice, you will reach what you have visualized.

---

SIMPLY EXPECT THE  
**BEST**

Make it a goal everyday to  
see yourself successfully  
fulfilling your purpose.

Get passionate about it  
and remain grateful and  
stay in the flow of  
expecting the desired  
outcome.

1st - Take 10 deep breaths in and out slowly and **focus** on your breathing.

**Imagine** you were applying for a very high paying job/career and you visualize yourself walking in the building.

Next you **visualize** yourself greeting people gracefully and respectfully.

Next you **see yourself** filling out the needed paper work, leaving your resume, making great professional connections that are needed, etc.

Next **visualize** yourself at the interview/meeting, answering every question correctly, you're right on beat with everyone there, showing confidence, you're comfortable, positive and showing high regard to the interviewer/CEO.

Finally you **see yourself** shaking their hand, making eye contact, thanking them for their time and etc. and walking out with the position/deal/signing the contract.

**See the outcome as an absolute, receiving the end result.**

Note the conscious mind (LOGIC) will put up a fight, don't let it win, resist the past, let it go, forgive yourself, forgive everyone and press on, looking forward not backwards.

The conscious mind will give up fighting in time only if you are persistent. Be grateful, thank God boldly for the victory.

Learn to live in a constant state of sincere gratitude. This is huge. The deep (or sub) conscious mind does not put up a fight, it just records, checks off and accepts. It's always ready and willing to record, trust, receive, you name it.

This is where your dreams can become reality with dedicated practice.

Please note: though it is good to see yourself go through the whole process, it's best to practice seeing yourself at the end result much more.

Don't look at yourself like it's a movie but as if it is really happening.

This is very important and powerful to do for each of your goals. Seeing yourself accomplishing the goal is key.

That's called expecting. Your deep conscious mind doesn't know the difference whether what you visualize is real or not.

Do it each day for 5-10 minutes.

The best time to do these visualizations is right before going to bed.

When you are sleep that is when your total mind is the most active therefore by ending your day visualizing your goals completed gives great fuel for your dreams to flourish.

When you do this daily before going to sleep, your deep conscious mind is accepting the visualization as truth, because it doesn't know that it's all in your mind so you will have a higher expectancy each day with persistence.

# Are You A Christian Believer?

If you don't get anything out of this PDF please get this in your spirit, as a child of God you are filled with the spirit of God. God is abundance. God is the creator.

God is love. That means you are a child of abundance. You are a child of the creator and you are a child of love ... Say this, "I AM A CHILD OF ABUNDANCE, I AM A CHILD OF THE CREATOR AND I AM A CHILD OF LOVE AND LOVE NEVER FAILS AND SINCE LOVE NEVER FAILS, I AM NOT A FAILURE, I AM BLESSED TO BE A BLESSING THIS DAY IN JESUS' NAME!"

Your faith must stay focused on what God's word said and claim it in Jesus' name everyday with your thoughts and also your words. Using Jesus' name in all your affirmations, prayers, thoughts, etc.

How you claim it with your thoughts? By holding the image of what you're believing for long enough in your mind until it is an expectation. Your mind is very powerful.

A believer who knows their purpose and is actively moving towards their purpose and God is with them, helping them fulfill their purpose is unstoppable.

The bottom line is this we MUST start expecting God to be God in our life, declaring or affirming words that line up with the word of God (because we have faith in him) and he loves us, he created us, he has made good plans for us all and so much more.

Jeremiah 29:11
